

Dan Secrest: Imavex

I worked at Imavex as a web designer and developer for over 4 years (2006-2010). I had the privilege to utilize and grow my skills alongside many talented people. This included working on projects for golf courses, auto dealerships, and various-sized businesses.

My role on the following samples were the lead designer and front-end developer. I worked directly with the client and a project manager throughout the entire project lifecycle. All website designs were created using Adobe Photoshop. They were then developed with HTML, CSS, JavaScript, and implemented into Imavex's content management systems (iWorksite and ClubWorksite) that were written in PHP. The logo designs were created using Adobe Illustrator.

The screenshot shows the homepage of the Pearly White Smiles website. At the top, there is a logo for "Pearly White Smiles Family and Cosmetic Dentistry" featuring a stylized globe icon. To the right, a phone number "317.849.3444" is displayed with the text "Request an Appointment" next to it. Below the header, a navigation menu includes "Home", "About Us", "Services", "Financing", "Testimonials", and "Contact Us". A large banner image on the left features a woman smiling and the text "Gentle Care. Trusted Dentist.". To the right of the banner is a smaller image of a dental office interior. Below the banner, a section titled "Advanced Family and Cosmetic Dentistry" is shown, with a sub-section "- Located in Fishers, Indiana". A paragraph of placeholder text follows. To the right, a "FREE CONSULTATION" form is available, containing fields for First Name, Last Name, Email, Phone, and Questions / Comments, with a "SUBMIT" button at the bottom. On the left side, there are four service sections: "Invisalign" (with a placeholder image), "Cosmetic Dentistry" (with a placeholder image), "Whitening" (with a placeholder image), and "Smile Gallery" (with a placeholder image). At the very bottom, a footer bar contains links to "Home", "About Us", "Services", "Financing", "Testimonials", and "Contact Us", along with a copyright notice: "Copyright © 2008. Pearly White Smiles. Rights Reserved." and the "IMAVEX web design" logo.

~ A stunning golf course created by Nicklaus Design Group ~

Nicklaus Designed Golf

This is the great game of golf, Southern style. While that means fewer groups nipping at your heels and clambering to play through, it doesn't mean that you'll easily shoot 5 under.

Living

The front porch is back. And with it, a more genteel way of life. Here at 12 Oaks you can truly experience gracious living with a Southern accent. The environment we've created is absolutely ideal for it.

Activities

While 12 Oaks offers a scenic Southern setting, it also offers a wide variety of outdoor and indoor activities. Here, life moves at a pace that provides for memorable times with family and friends.
